SUMMARY

Detail-oriented Information Systems graduate from Riau University with a GPA of 3.73 out of 4.00, seeking to leverage technical expertise as a Software QA Engineer. Possesses a strong foundation in manual testing, automated testing, API validation, and test case design using frameworks like Pest and Postman. Skilled in executing regression testing, integration testing, and bug tracking within Agile and Scrum workflows to deliver reliable, bug-free software solutions.

EDUCATION

Universitas Riau – Pekanbaru, Indonesia

Bachelor of Computers in Information Systems | August 2022 – June 2026

- GPA 3,73 out of 4.00

TECHNICAL & QA COMPETENCIES

- Testing & QA Methodologies:** Software Quality Assurance, Manual Testing, Automated Testing, Test Cases, Regression Testing, Integration Testing, System Testing, User Acceptance Testing, Agile and Scrum Methodologies, User Acceptance Testing (UAT).
- Testing Tools & Automation:** Postman, Pest, Cypress, Selenium, Appium, Cucumber, Jmeter, CI/CD Pipeline Integration..
- Project Management & Tracking:** Jira, Trello, Git, GitHub.
- Programming & Databases:** Python, PHP, Java, SQL Scripting, PostgreSQL, MongoDB, MySQL.
- Platforms:** Web Application, Mobile iOS and Android.
- Core Competencies:** Strong Analytical Thinking, Problem Solving, Thoroughness, Root Cause Analysis, Agile and Scrum Collaboration, Bug Tracking, Technical & Assertive Communication.

PROFESSIONAL EXPERIENCE

PT. Perkebunan Nusantara IV Regional III – Engineering & Processing Intern

January 2025 – February 2025

- Conducted system testing and data accuracy validation on real-time SCADA and IoT monitoring interfaces.
- Performed regression testing on operational dashboards to ensure system stability and metrics precision after feature updates.

TECHNICAL PROJECTS

API Reservation System – Test Automation Framework

June 2026

- Engineered an automated API testing framework covering over 70 test scenarios across 9 business-critical modules, ensuring 100% regression coverage for core backend flows.
- Identified and reported 8 critical backend defects during initial testing cycles, resolving server errors, endpoint misconfigurations, and OpenAPI mismatches prior to production deployment.
- Integrated local Ollama LLaMA 3.2 AI to generate realistic test data dynamically, cutting manual data preparation effort by 80% and eliminating duplicate conflicts.
- Built an automated retry mechanism for 409 Conflict errors, raising test setup reliability to over 95% success rate and saving 1 to 2 hours of weekly debugging time.
- Expanded framework capabilities with a PostgreSQL and SQLAlchemy database integration layer, enabling direct data verification and cutting root-cause analysis time by 50%

Cafe Reservation System

August 2025 – December 2025

- Managed bug tracking and sprint tasks using Jira and Trello within an Agile development workflow.
- Developed comprehensive test cases for manual testing, integration testing, and user acceptance testing to ensure full feature alignment with business logic.
- Validated API endpoints and payment gateway integrations using Postman and SQL scripting to verify database record consistency.

Hybrid Stacking Ensemble for PM2.5 Concentration Prediction | Thesis Project
September 2025 – June 2026

- Preprocessed and validated over 10,000 air quality data records, removing anomalous data to improve overall dataset quality by 30 percent.
- Evaluated model performance across complex algorithms using precise accuracy metrics, reducing prediction error rates by 18 percent compared to baseline models.

ORGANIZATIONAL & VOLUNTEER EXPERIENCE

Student Executive Board BEM – Universitas Riau

Staff – Ministry of Agrarian and Environment | February 2025 – December 2025.

- Coordinated internal teams and managed project implementation seamlessly.

Computer Science Student Association HIMALKOM – Universitas Riau

Journalism Bureau Staff | May 2023 – December 2023

- Validated and reviewed communication materials prior to publication to maintain information quality.

ESKALASI | Ekspedisi Kolaborasi: Riau Mengabdi

Volunteer, June 2025 - July 2025

- Documented local resources accurately for village profile development and supported environmental conservation initiatives.

CERTIFICATION & TRAINING

- Oracle Cloud Infrastructure AI Certified Foundations Associate - [2023](#)
- Digital Marketing Competency Certificate BNSP - [2024](#)
- Kickstart Fullstack Web Development Journey – [Rakamin Academy](#)
- Java Programming & Fundamentals – [Oracle Academy](#)
